Date	27 June 2026
TeamID	
ProjectName	Smart Lender
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S)[CS] Banks, financial institutions, credit officers, loan applicants, and financial analysts who require faster and data-driven loan eligibility evaluation.	6. CUSTOMER LIMITATIONS EG.BUDGET,DEVICES [CL] • Small financial institutions may have limited access to advanced credit evaluation systems. • Manual assessment requires more human resources and time.	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Existing Solutions: • Traditional manual loan verification processes. Pros: • Human expertise in decision-making. Cons: • Time-consuming process.
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] • Loan approval processes are often time-consuming due to manual verification and analysis. • Incorrect risk assessment can lead to loan defaults and financial losses.	9.PROBLEM ROOT/ CAUSE [RC] • Increasing number of loan applications. • Manual evaluation methods require more time.	7. BEHAVIOR + ITS INTENSITY [BE] • Customers submit personal and financial information while applying for loans. • High-volume loan processing increases the need for automated prediction systems.
3.TRIGGERS TO ACT [TR] • A customer applying for a loan. • Banks receiving a large number of loan applications. • Need for faster creditworthiness evaluation.	10.YOUR SOLUTION [SL] Smart Lender is a Machine Learning-powered Flask web application that predicts loan eligibility using applicant information and classification algorithms such as Decision Tree, Random Forest, KNN, and XGBoost.	8.CHANNELS OF BEHAVIOR [CH] ONLINE: • Banking websites. • Loan application portals

4. EMOTIONS

BEFORE / AFTER [EM]

Before: • Uncertainty about loan approval.

After: • Faster understanding of loan approval possibility.

OFFLINE:

- Bank branches
- Credit officer interactions.
