Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel-in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS •I want a quick loan approval result. •The application process should be simple. •I need a fair and accurate decision.	THINKS •Will my income qualify for the loan? •I hope my credit history is good enough. •The decision should be transparent.
PERSONA NAME Loan Applicant	
DOES •Fills in personal and financial details. •Submits the loan application form. •Checks the eligibility prediction result.	FEELS •Hopeful about getting financial assistance. •Satisfied when the decision is quick, accurate, and transparent. •Anxious while waiting for the loan decision.
